UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Biopesticides and Pollution Prevention Division (7511P)
1200 Pennsylvania Avenue NW
Washington, DC 20460

EPA Reg. Number:

79442-14

Date of Issuance:

SEP 14 2012

Term of Issuance:

Unconditional

Name of Pesticide Product:

exosex SP Tab

NOTICE OF PESTICIDE:

- Registration
- Reregistration
(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Exosect Limited
Leylands Business Park, Colden Common
Winchester, Hants, SO21 1TH, United Kingdom

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his/her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration does not eliminate the need for continual reassessment of the pesticide. If EPA determines at any time, that additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under section 3(c)(2)(B) of FIFRA. This product is unconditionally registered in accordance with FIFRA Sec. 3(c)(5) provided you:

1. Submit and/or cite all data required for registration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Revise the EPA Registration Number to read, "EPA Reg. No. 79442-14".
3. Submit two (2) copies of the final printed labeling before you release the product for shipment.

Signature of Approving Official:

Linda A. Hollis, Chief
Biochemical Pesticides Branch
Biopesticides and Pollution Prevention Division

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Avoid breathing dust Avoid contact with skin eyes or clothing Wash thoroughly with soap and water after handling and before eating drinking chewing gum using tobacco and using the toilet Remove contaminated clothing and wash before reuse

FIRST AID

IF ON SKIN OR CLOTHING

Take off contaminated clothing
Rinse skin immediately with plenty of water for 15 20 minutes
Call poison control centre or doctor for treatment advice

IF INHALED

Move person to fresh air
If person is not breathing call 911 or an ambulance then give artificial respiration preferably mouth to mouth if possible
Call poison control centre or doctor for treatment advice

IF IN EYES

Hold eye open and rinse slowly and gently with water for 15 20 minutes Remove contact lens if present after the first 5 minutes then continue with rinsing
Call poison control centre or doctor for treatment advice

Have product container or label with you when calling poison control centre or doctor or going for treatment You may also contact the National Pesticide Information Centre at 1 800 858 7378 (between 9 30am and 7 30pm eastern time) for emergency treatment advice

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labelling

USE Stored grains processed and manufactured grains tobacco dried fruit chocolate and
COMMODITIES other confectionary products

PESTS Indian Meal Moth (*Plodia interpunctella*) Mediterranean Flour Moth (*Ephesia kuehniella*) Warehouse/Cocoa Moth (*Ephesia elutella*) Almond Moth (*Cadra cautella*) Raisin Moth (*Cadra figuliella*)

APPLICATION Place one Exosex SPTab tablet into the dispenser Attach dispensers approximately 6 feet above ground level to the interior perimeter of the building and structures within the building in a grid pattern to a density of 1 tablet every 225 square feet Replace tablets after 2 months to ensure continuity of control Treatment can remain in place continuously throughout the year without interruption As promulgated at 40 CFR 180 1153 DO NOT EXCEED the rate of 3.5 g pheromone per 1 000 square feet per year

TIMING Where possible place the product one week prior to moth emergence

PEST MONITORING Use monitoring traps throughout the treated area to assess the level of infestation A reduction in moth numbers in monitoring traps overtime will show that the Exosex SPTab system is working Do not place tablets within 2m (approx) to monitoring traps Exosex SPTab is a prophylactic treatment and should be used as part of an Integrated Pest Management approach In high insect pressure situations supplemental spot treatments and/or intensive cleaning of infested machinery may be required to ensure that control is achieved/maintained Over time the general reduction in moth numbers will enable individual monitoring traps to provide a warning of local infestation hotspots and pinpoint where extra remedial action is required
